

Arti'Flex

Joint comfort

Repeated efforts and training lead to noxious effects on cartilages and synovial fluid.

Cartilage ageing is conducive to limit the suppleness and horse mobility.

Arti'Flex, has a twice protective action thanks to its innovative formulation.

Arti'Flex favors, accelerates, and strengthens the cartilage and new fibers production thanks to a specific formulation from sea origin (glucosamine and sea chondroitin).

Arti'Flex relieves and reduces inflammation thanks to its formulation based on herbal extracts in hydro-alcoholic solution.

Arti'Flex is particularly suitable for horses subjected to pains and articular rigidities.

Compositions

Vegetable glycerin, marine potassium glucosamine, propylene glycol, marine chondroitin sulfate, sodium chloride, dextrose, yucca schidigera extract juice.

Analytical components

Crude protein	3,2 %
Crude fat	< 1 %
Crude cellulose	< 1 %
Crude ashes	2 %
Glycerol	7 %
Sodium	< 1 %
Potassium	0,6 %
Glucosamine	50 000 mg/L
Chondroitin	10 000 mg/L
Plants Extract	26,5 %

Vitamins

3a700 Vitamin E / A-tocopherol-Acetate	5 000 mg/L
Vitamin C / L-ascorbic Acid	7 000 mg/L

Amino acids

3.2.3 Lysine	11 800 mg/L
L-lysine monohydrochloride	
3c307 Methionine	15 000 mg/L
Hydroxy analogue of methionine	

Mixture of flavouring compounds

Plants extract (Licorice, Meadosweet, blackcurrant, horsetail)	10 000 mg/L
Glycin	

Direction for use

Arti'Flex is to be given into the mouth or to be mixed up with the feed :

. Adult : 50 ml to keep fit during 20 days or 100mL for 10 days as a shock treatment

. Foal or Pony: 25 ml to keep fit during 20 days or 50 ml for 10 days as a shock treatment.

Indications

To be renewed regularly.

To be kept away from the light and heat.

Shake beore use !

Packaging

Can of 1l . AE138

Can of 5l . AE139
